Summary

Full-stack developer (React / Next.js / Node.js) with 2+ years building and shipping production web applications. Proven track record of improving user engagement and retention — including a 15% measurable increase in user retention through UI/UX optimization at Kodex Technologies. Comfortable owning features end-to-end: from REST API design and database modeling (SQL, MongoDB) to responsive front-end implementation and deployment.

Work Experience

Kodex Technologies | **Full stack Developer** | 2025 - current

• Built and maintained full-stack features using Next.js and Nest.js through code splitting and API response optimization.

• Designed and integrated RESTful APIs consumed by both web and mobile clients, handling data modeling in MySQL.

• Collaborated directly with the product designer to translate Figma mockups into pixel-accurate, responsive components — cutting design-to-dev handoff time from days to hours.

CyberZeus | Frontend Web Developer | 2024 - 2025

• Implemented responsive, cross-device UI components using HTML5, CSS, and JavaScript — improving mobile usability scores across 3 client projects.

• Integrated Charts.js and modern data visualization libraries to deliver interactive dashboards, reducing client reporting time by ~40%.

Octalogistics | **Web Developer Intern** | 2024

• Built interactive web pages using ReactJS, Redux, Bootstrap, and CSS3 — contributing to 2 live client projects under senior developer mentorship.

Projects

- Clinic Management System — Doctor7

Full-stack admin platform for managing clinic operations across Admin, Doctor, and User roles. Built with React/Next.js (frontend) and Node.js/Nest.js (backend), with MySQL for relational data modeling. Features include appointment scheduling, patient records management, and role-based access control.

- Web Portfolio & Client Projects

Collection of responsive business and travel websites built with React, JSX, Bootstrap, and Tailwind CSS. Each site optimized for mobile-first design and Core Web Vitals performance. Source code and live demos available on **GitHub**: https://github.com/Ahmed-Imran-khan.

Skills

Frontend: React, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS Bootstrap, Redux

Backend: Node.js, Express.js, REST API design, JWT Authentication

Database: MySQL, MongoDB, Mongoose

Tools: Git, GitHub, Figma, Postman, VS Code

Other: Agile/Scrum, UI/UX principles, Prompt Engineering, Adobe Illustrator

Education

Bachelors in Computer Science
Lahore Leads University | 2021 – 2025
CGPA = 3.62

Intermediate (ICS)
Punjab Group Of Colleges | 2018 – 2020

Matriculation
Ch Rehmat High School | 2013 - 2018
Total Marks = 953 / 1100

Certification

Agile Product Development - Takhleeq Incubator (August 2025)
